DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 46-47, 50-51 are rejected under 35 U.S.C. 102(e) as being anticipated by Embree (US 6,104,222).

Regarding claims 46-47, 50-51, Embree discloses a processor (Figure 2; system 100) comprising:

an input signal (input signal r_2);

a feedback signal (feedback signal f_b);

a comparison stage for providing as a comparison signal a comparison of the input signal and the feedback signal (PSD 120 compares input signal r_2 and feedback signal f_b and provides a control voltage; col. 3, lines 29-31); and

a tracking filter responsive to an output of the comparison stage for producing an output in accordance therewith (loop filter 125 receives a control voltage output from PSD 120 and produces a filtered control voltage to VCO 130; col. 3, lines 29-33).

Allowable Subject Matter

3. Claims 1-8, 10-45, 61-63 are allowed.
4. Claims 48-49, 52-60, 64 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to claims 46-47, 50-51 have been considered but are moot in view of the new ground of rejection.
